SOFT SKILLS

• Time Management • Teamwork •

Problem solving • Communication

SUMMARY

Passionate software engineering enthusiast at Scaler Academy since February 2023, skilled in **DSA** using **Java**, **SQL**, and full-stack development. **Proficient in HTML, CSS, JavaScript, React.js, and Node.js**, I enjoy building robust web applications and tackling challenges to drive innovation.

PROJECTS

TWITTER / X Jan 2025 | Visit App

- Built a **full-stack** social media application using the MERN stack with essential features like **post creation (text, image, or both), liking/unliking posts, commenting, and post deletion** (owner-only).
- Users can follow others, view their posts, update/edit profiles, and upload profile/cover images.
- The app includes a Twitter-like post/likes toggle, real-time notifications, and a fully responsive UI.
- React.js, **Tailwind CSS + DaisyUI** for styling. Node.js, Express.js with MongoDB as the database. JSON Web Tokens (JWT) for secure authentication. Integrated Cloudinary for media storage.
- React Query (Tenstack) for data fetching, caching, and updates.

GITHUB Jan 2025 - Feb 2025 | Visit App

- Developed a GitHub-like application using the **MERN stack**, Tailwind CSS, and the GitHub API to fetch and display user-profiles and repositories
- Implemented sorting and filtering based on date, stars, and forks, along with clone URL copying for easy repository access.
- Integrated **Passport.js** authentication for **GitHub-based** signup and MongoDB (Mongoose) for database management. Ensure a seamless and responsive experience.

NETFLIX Feb 2025 | Visit App

- Built a fully responsive Netflix-inspired web app using **MERN** stack (MongoDB, Express.js, React.js, Node.js), ensuring a seamless user experience across devices.
- Implemented authentication with **JWT** for secure signup, login, and logout functionality.
- Integrated movie and TV show APIs to fetch content, enabling users to search for movies, TV shows, and people, with watch trailers and discover similar content features.
- Managed user search history, allowing users to view and clear their past searches for a personalized experience.
- Enhanced user engagement with categorized content sections for easy navigation and exploration.

EXPERIENCE

ANHA - ART AND ARTIFACTS | STORE MANAGER

Aug 2018 – Present | Kemps Corner, Mumbai

- Efficiently managing daily store operations.
- Handling **Tally operations**, including billing, cash flow management, and transaction recording, ensuring financial accuracy and compliance.
- Enhanced customer satisfaction by responding to inquiries, resolving concerns, and implementing strategies to improve store performance.
